1. CANDIDATE'S DECLARATION

I, ALAUKIK AWASTHI, do hereby declare that this internship report titled "WEB DEVELOPMENT INTERNSHIP" documents my internship at InAmigos Foundation from 21st August 2026 to 3rd September 2026.

I declare that the information presented in this report has been prepared for academic submission and that the internship completion details are based on the certificate issued by InAmigos Foundation. The detailed project descriptions and technical information in this report are based on the work completed during the internship and the project records available to me.

I understand that I am responsible for ensuring that project screenshots, technical details, links, and supporting evidence included in the final submission accurately represent my work.

Signature: _____

Student Name: Alaukik Awasthi

Roll No.: 25SCS1003004061

Section: 2CSE13

2. ACKNOWLEDGMENT

I would like to express my sincere gratitude to InAmigos Foundation for providing me with the opportunity to complete a Web Development Internship from 21st August 2026 to 3rd September 2026.

The internship gave me practical exposure to website development, project organization, user-interface design, deployment and AI-oriented web concepts. Working on multiple assignments helped me connect academic learning with practical development activities and improved my confidence in presenting technical work.

I am also thankful to IILM University, my faculty members, family, and everyone who supported me during my academic and internship journey.

Signature: _____

Alaukik Awasthi

3. INTERNSHIP COMPLETION CERTIFICATE

The following certificate is the formal completion record supplied for this internship. It acknowledges Alaukik Awasthi's successful completion of a Web Development Internship at InAmigos Foundation from 21st August 2026 to 3rd September 2026.

Regd no. - U85300CT2020NPL010641

CSR - 1 Registered - CSR00083159

80G - AAFCI8183CF20222

This certificate acknowledges the successful completion of a Web Development Internship at InAmigos Foundation from 21st August 2026 to 3rd September 2026.

Mr. Vignesh N
HR Operations Lead

Regd. No. – U85300CT2020NPL010641
CSR-1 Registered – CSR00083159
80G – AAFCI8183CF20222

4. INTERNSHIP / PROJECT DESCRIPTION

4.1 Introduction

Web development involves the creation and maintenance of websites and web-based applications. It combines planning, interface development, functionality, testing, deployment and documentation to create useful digital experiences.

My internship at InAmigos Foundation provided practical exposure to this workflow through a series of web-development assignments. The work included creating an NGO website, analysing possible website improvements, developing the Learnova AI-powered learning platform concept, creating an NGO feature-highlight page, and completing final documentation and reflection activities.

4.2 Organization Profile

InAmigos Foundation is the organization at which I completed my Web Development Internship. The organization uses the identity “InAmigos” and the tagline “Uniting Minds For Change.” The internship certificate formally records the successful completion of my internship and identifies Mr. Vignesh N as HR Operations Lead.

4.3 Internship Overview

- Internship Title: Web Development Internship
- Organization: InAmigos Foundation
- Intern: Alaukik Awasthi
- Internship Period: 21 August 2026 – 3 September 2026
- Certificate Date: 10 September 2026
- Program: B.Tech – Artificial Intelligence
- University: IILM University, Greater Noida

4.4 Objectives

- Gain practical exposure to a professional web-development workflow.
- Strengthen front-end development and responsive-design skills.

- Understand how requirements are converted into complete web pages and interfaces.
- Learn to organize project assets and maintain development work through repositories.
- Understand static website deployment using GitHub Pages.
- Explore how AI concepts can be presented through useful, student-focused web products.
- Improve technical documentation, communication and presentation skills.

4.5 Scope of the Internship

The internship scope covered web-development activities carried out for InAmigos Foundation. My work included front-end website creation, design improvement, an AI-oriented education platform concept, NGO feature presentation and final documentation.

The scope also included practical use of development and deployment tools. The projects were designed to demonstrate usable interfaces and clear communication of information rather than only isolated programming exercises.

4.6 Technologies and Tools Used

Technology / Tool	Purpose	Use in Internship
HTML5	Structure	Web page structure and content
CSS3	Styling	Layout, typography, spacing and responsive design
JavaScript	Interaction	Client-side behaviour and web interactions
GitHub	Repository	Source-code and project management
GitHub Pages	Deployment	Publishing static websites
VS Code	Development	Writing and organizing project files
AI / Generative AI tools	Development support	Ideation and AI-oriented web product development

4.7 Work Methodology

1. Understand the Requirement
Review the assigned task and identify the expected website, page, feature or outcome.
2. Plan the Solution
Organize content, sections, assets, interface structure and implementation approach.
3. Develop
Implement the required web components using the selected front-end technologies.
4. Test and Refine
Check the interface, identify layout or functionality issues and make corrections.
5. Deploy
Prepare the project repository and publish eligible static projects using GitHub Pages.
6. Document
Record the work, screenshots, learning outcomes and supporting evidence.

4.8 Learning Outcomes

- Improved practical understanding of web-development workflows.
- Stronger understanding of HTML, CSS and JavaScript in project-based work.
- Experience with GitHub repositories and GitHub Pages deployment.
- Improved ability to structure responsive and user-friendly web interfaces.
- Exposure to AI-oriented product thinking through Learnova.
- Improved documentation, communication and presentation skills.
- Better understanding of iterative design, debugging and project refinement.

4.9 Evidence / Work Summary

Task 1 – InAmigos Foundation Website

Created a structured NGO website using HTML and CSS, using project assets and impact-oriented sections to communicate the organization's work. Repository: github.com/alaukikawasthi/inamigos-foundation

Task 2 – Website Improvement Analysis

Analysed a website experience and documented possible improvements related to presentation, organization, consistency and user experience.

Task 3 – Learnova

Developed Learnova as an AI-powered learning platform concept with an AI Tutor, study tools and learning paths. The project was designed as a responsive student-focused web experience. Repository: github.com/alaukikawasthi/learnova

Task 4 – NGO Feature Highlight

Created an NGO feature-highlight page containing Donate, Volunteer, Impact, Campaigns and Testimonials sections.

Repository: github.com/alaukikawasthi/inamigos-task4

Task 5 – Final Internship Activities

Completed final internship documentation, review and reflection activities and consolidated the learning and evidence from the internship.

Screenshots / Work Samples: Attach relevant project screenshots, GitHub evidence and deployment screenshots in the appendix.

4.10 Certificate and Completion Details

The supplied certificate states that Alaukik Awasthi successfully completed a Web Development Internship at InAmigos Foundation from 21st August 2026 to 3rd September 2026. The certificate is dated 10/09/2026 and is signed by Mr. Vignesh N, HR Operations Lead.

Certificate identifiers displayed on the document include:

Regd. No.: U85300CT2020NPL010641

CSR-1 Registered:CSR00083159; 80G: AAFCI8183CF20222.

5. BIBLIOGRAPHY / REFERENCES

- Internship Completion Certificate issued by InAmigos Foundation to Alaukik Awasthi, dated 10/09/2026.
- Internship task briefs and submission records provided during the internship.
- Project source repositories maintained by the intern.
- MDN Web Docs – HTML, CSS and JavaScript documentation.
- GitHub Documentation – repositories and GitHub Pages.
- Internship report and presentation format supplied as an academic reference.
